

AnalytIQ  
CONSULT  
LAW | ENERGY | BUSINESS

# About Us

Analyt**IQ Consult** was established by **Dr. Berryl Claire Asiago**, PhD in Energy Law (Finland), LLM (Dip) in International and European Energy law (Finland), LLM in International Banking and Insurance law (UK), and LLB (India) to bridge the gaps between academic knowledge and hands-on approach.

Analyt**IQ Consult** offers strategic insights and in-depth understanding of legal, energy and business issues in context. As a key regional player, we evaluate challenges that national and international businesses, organisations, and governments face while simultaneously appraising their opportunities.

Our services focus on improving corporate efficiency while reducing administrative costs. We remain accountable to our clients by helping them redefine innovative strategies to achieve results.

Our methodologies combine industry benchmarks and research ethics to ensure that investor interests are balanced, and regulatory compliance is prioritised in each entrusted mandate.

Our foundation

**BUILDING TOMORROW'S FUTURE  
WITH TODAY'S UNCERTAINTIES**

# Why AnalytIQ Consult?

---

Our consultants are highly reputable, experienced and multilingual (Arabic, English, Finnish, French, German, Swahili) experts across the globe and particularly within the African continent, where we have a strong focus.

Our main focus is on the proper delivery of our services and, as such, we constantly strive to improve clients satisfaction. We persistently stretch our boundaries to allow our clients to reach their potential.

We have succeeded in developing methodologies that serve to identify our clients' specific requirements and cater to addressing them efficiently and effectively.

# Our targets

## We advice you in...

- ACHIEVING BUSINESS GOALS;
- IMPROVING EFFICIENCY;
- ENHANCING PROJECT MANAGEMENT;
- DETECTING NEW OPPORTUNITIES...

We understand that our clients work in various sectors and industries. We consider that they have different business goals, with different needs and that their cultures and business environments vary.

# RESEARCH & DEVELOPMENT

AnalytIQ **Consult** R&D activities consist of gathering and utilising the information obtained to develop new applications. Our R&D services include basic, applied and development research.

AnalytIQ **Consult** advisors consider research ethics of utmost importance and the bedrock of securing cost-efficient solutions. Our consultants apply scientific ethics in all stages of our research to submit solution-based information.

# How we work

■ GOAL / PROBLEM DEFINITION.

■ ASSESSMENT AND PRIORIZATION.

■ SOLUTION DESIGN AND DELIVERY.

■ RESULT MEASUREMENT.

# CODE OF ETHICS

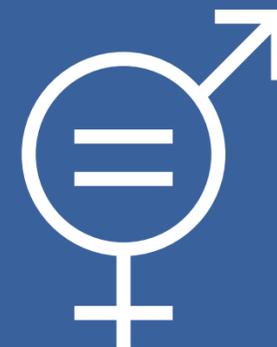

Our professional code of ethics aims to give our employees guidelines on our business ethics and help solve controversial matters.

INTEGRITY,  
CONFIDENTIALITY,  
PROFESSIONALISM.

ANTI-CORRUPTION,  
ANTI-MONEY LAUNDERING.

EQUALITY,  
NON-DISCRIMINATION.

Our philosophy

**QUALITY SERVICE IS A SYSTEM, NOT  
JUST A SLOGAN**

# The Team

Dr. Berryl Claire Asiago is an energy & extractives lawyer specialising in emergent energy markets of Eastern Africa (Djibouti, Kenya, Tanzania, Uganda, Ethiopia, Eritrea and Somalia). She has sound academic credentials: PhD in Energy Law, and LLM (Dip) in International and European Energy law (both Finland), an LLM in International Banking and Insurance law (UK), and an LLB (India).

Additionally, she is the founder of Horn of Africa Energy Industry Association. Furthermore, Dr. Asiago serves as a research fellow at the Centre of Climate Change, Environmental, and Energy Law (CCEEL) Finland. She has published extensively and advised governments, organisations and business.

Before relocating to Djibouti, Dr. Asiago worked in South Sudan, Kenya, the United Kingdom, and Finland, building hands-on legal research experience.

Dr. Asiago is proficient in English, French, and Swahili.

Dr. Berryl Claire Asiago  
Managing Director

# The Team

As a research consultant at AnalytIQ Consult, Ms. Wicker combines her scientific expertise with her academic studies in international law and policy, to provide technology-focused and future-forward analyses of energy systems and their feasibility in practice. She also applies her mathematical skills to quantitative analyses and market statistics. Ms. Wicker is a researcher and PhD candidate in environmental biotechnology at the Lappeenranta-Lahti University of Technology.

Ms. Wicker has extensive academic experience in chemical ecology, analytical chemistry, biogeochemistry, and professional training in industrial biotechnology working for Eurofins Lancaster Laboratories and Merck, Sharp, and Dohme. Her current PhD research seeks to develop biological carbon capture technology, negative-emissions bioenergy products, and synergistic, sustainable biotechnology solutions for climate change mitigation.

Ms. Wicker is proficient in English, and French

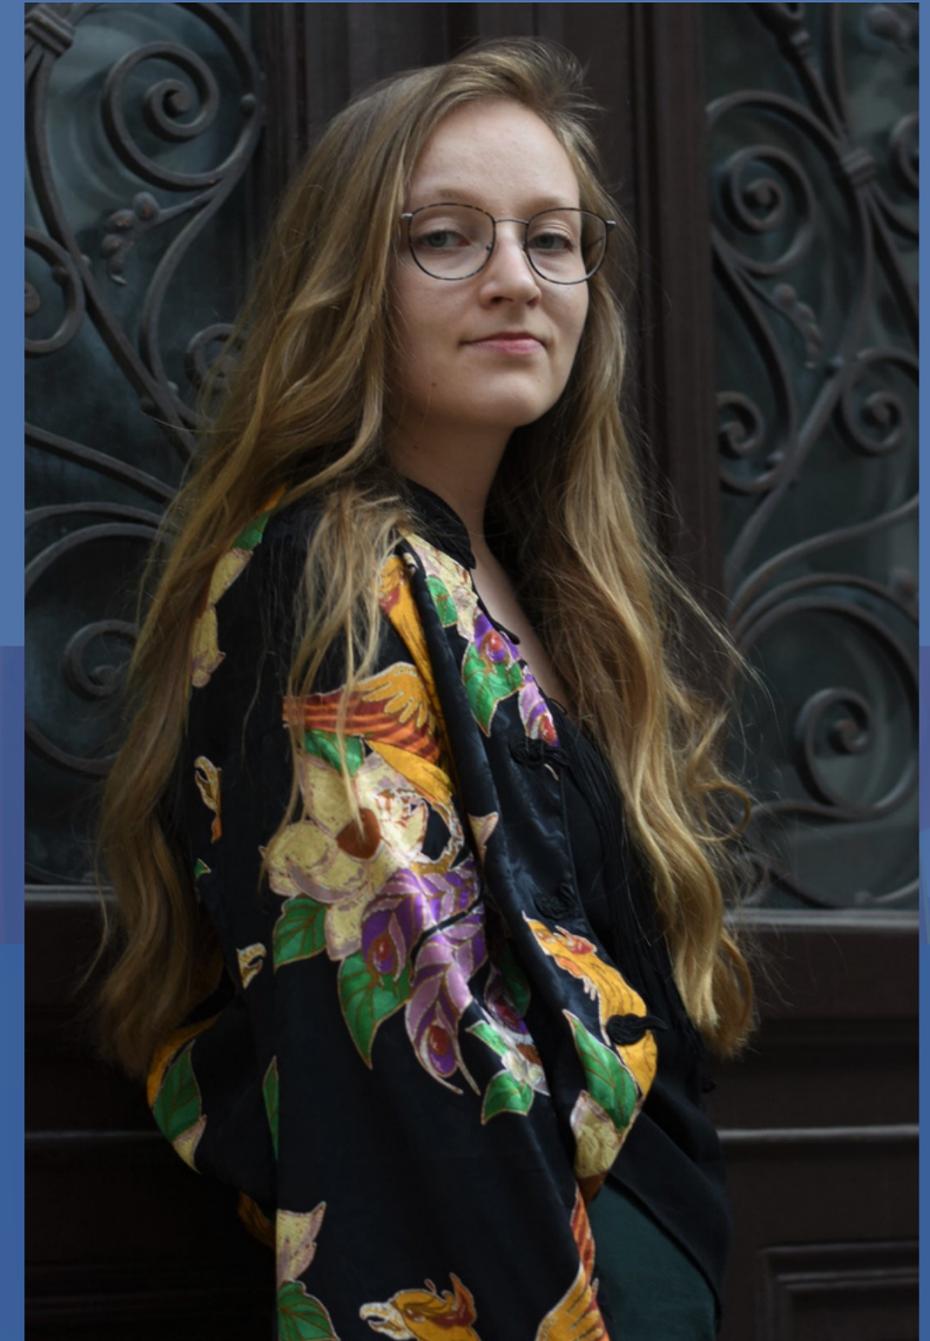

Rebecca Wicker (M.Sc)  
Head of Research and  
Development

# The Team

Ms. Karvonen is responsible for international project management at **AnalytIQ Consult**. She is a researcher with interests in various areas of EU and international trade law. Besides, her legal research skills, Anne attained legal training in legislative drafting and review during her masters at the University of Eastern Finland.

Ms. Karvonen is also a qualified teacher in the German language. She is accustomed to combining interdisciplinary research methods at work through her extensive language skills, studies and work experience. Ms. Karvonen has gained experience in economic promotion, banking, Finnish Defense Ministry, and the OSCE.

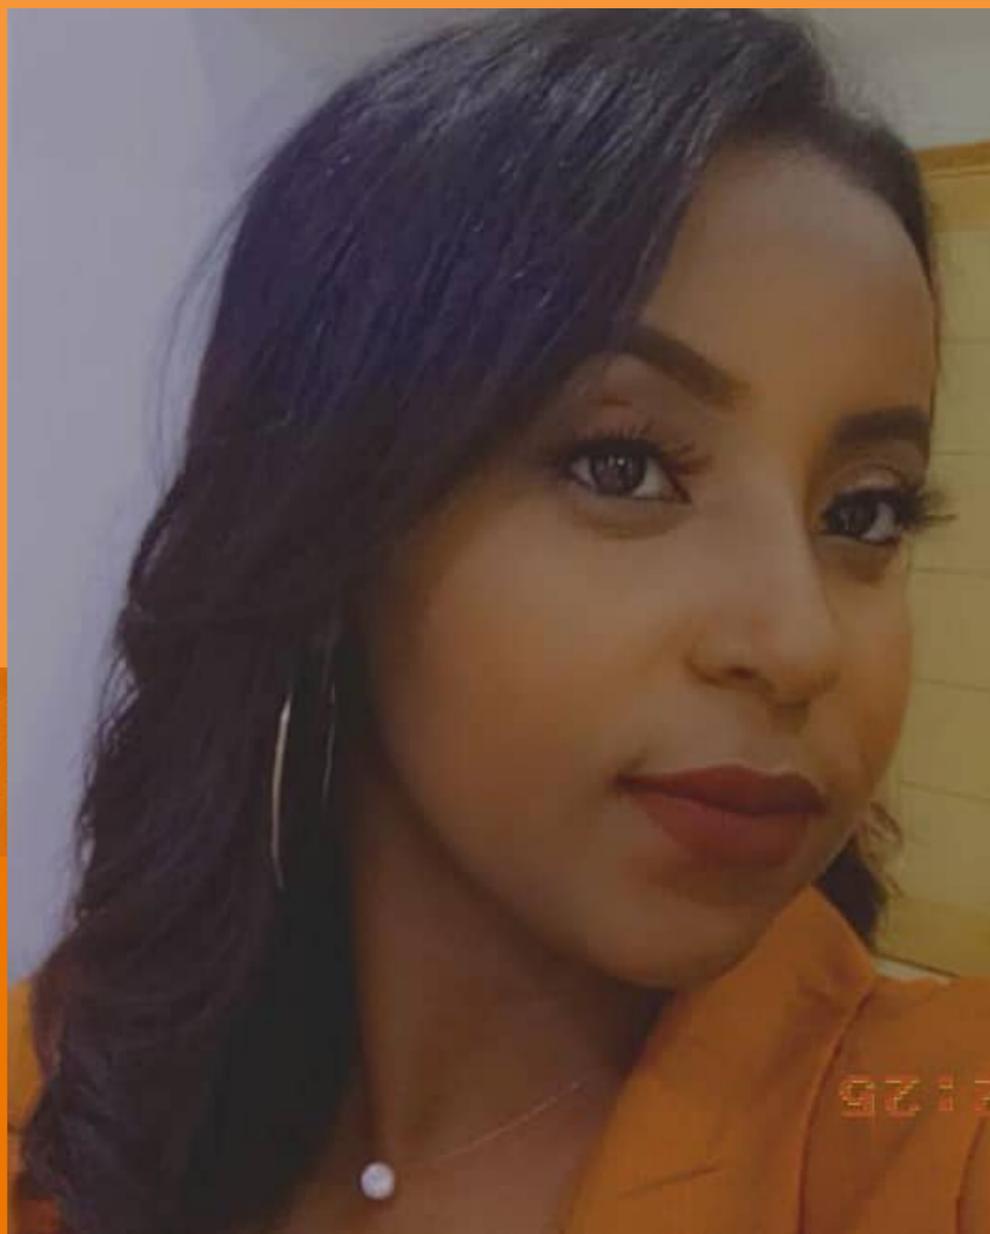

Ms. Karvonen is proficient in Finnish, English, and German.

Anne-Mari Karvonen (B.Pa)  
Head of International Affairs

# The Team

Ms. Abdoussalami is responsible for legal, regulatory and commercial research and business development in the region. Ms Abdoussalam obtained her degree in Private Law at the University of Djibouti. Later, she continued to pursue her Master's degree in Business and Corporate Law at the International University of Tunis.

Before joining **AnalytIQ Consult**, Ms. Abdoussalam worked at the Gadileh Notary Office in Djibouti in September 2020. Before this, she worked with companies specialised in import/export such as Chab Express Transit & Logistics and BGA General Trading and Logistics.

Ms. Abdoussalam is proficient in French, Somali, Afar, Arabic and English.

Emili Abdoussalam (M.2)  
Legal Analyst

# The Team

Ms. Marill is responsible for legal, regulatory and business research, updating clients on the changes related to legal and regulatory systems in Djibouti and translating documents as required.

Ms. Marill studies Law (Major) and Management (Minor) at Toulouse University in France. Ms. Marill lived and studied in Djibouti (15 years) and in Sydney Australia during 2016-2018. She passed her entrance examination in Hong Kong (2018) to integrate Political Science school in France. Before joining **AnalytIQ Consult**, Ms. Marill undertook internships at the Cabinet ZK law firm (Djibouti), Toyota (Djibouti) and CFAO (Paris).

Ms. Marill is proficient in French and English.

Léa Marill  
Legal Analyst
